Shipping Policy

It is not our company's policy to pay incoming or outgoing freight. Any shipments we receive collect will be added to your final invoice. For outgoing shipments, we will either prepay and add or ship collect. Our standard method of shipping products less than 70 lbs. is UPS.

Do you have a UPS account number that we may use for collect shipments?

Unfortunately, we do not use FedEx.

For shipments over 70 lbs., our preferred freight company is XPO Logistics. If you would like to use a different carrier, please indicate here.
